Subject Index (Vol. 104)

Ageing, 74
Albumin, 74
Aldose reductase, 46
Amyotrophic lateral sclerosis (ALS), 88, 119, 166, 209
Anti-cardiolipin antibodies, 56
Anti-galactocerebroside antibodies, 92
Anti-GM1 antibodies, 209
Anti-myelin basic protein antibodies, 92
Apoptosis, 81
Artificial ventilation, 143
Autograft, 190
Autoimmunity, 81
Autonomic disorder, 222
Autonomic failure, 143
Autonomic function, 129
Autonomic nervous system, 129
Autonomic neuropathy, 39
Autonomic regulation, 32
Autoradiography, 190
Axonal pathology, 1
Axonal spheroid, 1
Axonal transport, 46, 166

Blood pressure, 39
Blood–brain barrier, 9, 74, 166, 176
Brain bioenergetics, 182
Brain metabolism, 135

Campylobacter jejuni/coli, 56
Cardiovascular reflexes, 129
Catecholamine fluorescence, 222
Cell death, 81
Cell traffic, 9
Cerebral arteries, 19
Cerebrospinal fluid, 143, 215, 230
Cerebrovascular flow measurements, 32
Chronic relapsing experimental allergic encephalomyelitis (CREAE), 9
Conglomerate inclusions (CIs), 119
Cranial ganglia, 19
Cytochrome *c* oxidase deficiency, 97
Cytokines, 215
Cytomegalovirus, 56

Decay curves, 176
Demyelination, 81
Denervation, 190
Dentato-olivary dysplasia, 157
Desmin, 64
Diabetic neuropathy, 39
Diaschisis, 135
Duration of illness, 143

Edema, 9
ELISA, 215, 230
Encephalomyopathy, 97
Enzyme histochemistry, 197
Epstein-Barr virus-transformed B lymphocytes, 92
Experimental allergic encephalomyelitis, 81

Facial muscles, 197
Fiber typing, 197
Flexor withdrawal reflex, 13

GABAergic neuron, 1
Galactosemia, 46
Gangliosidosis, 1
GM1 ganglioside, 209
Guillain-Barré syndrome, 52, 56, 143, 151

Headache, 19
Heart rate, 39
Hindbrain malformation, 157

IgG, 74, 88
IgM, 88
Immunohistochemistry, 166
Immunology, 215
In vitro antibody production, 92
Interleukin-1, 230
Interleukins, 215

Leigh syndrome, 97
Liposomes, 209
Liver enzyme abnormalities, 143
Lower motor neutron, 209
Lymphocyte, 81
Lymphocyte transformation, 52

α_2-Macroglobulin, 74
α-Mannosidosis, 1
mdx mice, 190
Metal analysis, 119
Mice, 9
Migraine, 182
Mimic muscles, 197
